Since 2018

Filmmaker and video editor with eight years across film, advertising and content. I currently work as Creative Production Manager at Amwaj International, leading the marketing department's team of editors and photographers. I have worked with government bodies and with global and local brands, and I write the editing and directing concept of a project before it is shot. **Every shot has a reason, and every cut has its timing.**

Experience

Amwaj International

2022 — Present

Creative Production Manager · Marketing Department

- Lead the department's creative production, from concept and script to edit and final finishing.
- Supervise the team of editors and photographers and review their work for pacing, sound and brand.
- Brand films, real-estate campaigns, 3D walkthroughs, motion graphics and social media reels.
- Brought AI tools into the production pipeline to work faster and raise quality.

Freelance

2018 — Present

Director · Assistant Director · Video Editor

- Directed and edited independent films, and worked as assistant director in the art scene.
- Edited commercials and content for global and local brands and government bodies.

Skills

Editing & Storytelling
Building rhythm and story from raw footage, from short ads to film.

Motion Graphics
Kinetic typography, infographics and full finishing in After Effects.

Color Grading
A distinct color identity for each piece, commercial or cinematic.

Sound Design
Sound effects, mixing and loudness for each platform.

Creative Direction
Writing the editing and directing concept before the shoot.

AI Production
Generating AI images and video and blending them into the edit.

I started editing in **After Effects** before any other program, so motion and visual detail are built into the way I think about a cut.

Premiere Pro · After Effects · Audition · Photoshop · Illustrator · AI Tools
